

INDEPENDENT TEXTILE COMPLIANCE AUDIT — RAVI GARMENTS LTD

Audit Reference: EXP-RGL_KHI_003-20260502 Audited by amfori-accredited audit (third party) Date of issue: 2026-05-02

Legal entity	Ravi Garments Ltd
City / Site	Karachi, Sindh, Pakistan
Factory ID	rgl_khi_003
Primary products	Knitwear, Polo shirts, Loungewear
Audit scope	EU CBAM (Reg 2023/956), UK Modern Slavery Act 2015 §54, EU CSDDD (Dir 2024/1760), ISO 14001 s
Audit method	On-site inspection, sample chain-of-custody, effluent grab samples (3 points), HR log review, managemen

1. Certifications & certification status

Certification	Status	Valid until	Issuer	Notes
SA8000	VALID	2027-08-30	SAI	Surveillance audit on file. Valid for full scope of EU/UK shipme
ISO 14001	VALID	2027-05-15	Bureau Veritas	Surveillance audit on file. Valid for full scope of EU/UK shipme
GOTS	VALID	2027-01-20	Control Union	Surveillance audit on file. Valid for full scope of EU/UK shipme
OEKO-TEX	VALID	2027-03-12	OEKO-TEX Institute	Surveillance audit on file. Valid for full scope of EU/UK shipme
BSCI	VALID	2027-06-01	amfori	Surveillance audit on file. Valid for full scope of EU/UK shipme

2. Export profile and buyer concentration

Total annual export value reported by management: **PKR 310.00 crore**. Breakdown by purchasing buyer (FY 2025):

Buyer	Annual order value (PKR)	Share of total	Buyer HQ jurisdiction
EuroThread SA	PKR 130.00 crore	41.9%	EU (Spain)
Next	PKR 95.00 crore	30.6%	UK
NordStyle Group	PKR 60.00 crore	19.4%	EU (Sweden)
Asda	PKR 25.00 crore	8.1%	UK

3. Self-reported compliance claims (factory submission)

The following statements were provided by Ravi Garments Ltd's compliance team in the quarterly self-report (source filename in parentheses). These statements are recorded verbatim and used as the LEFT-HAND side of the contradiction check in Section 5.

- "CBAM quarterly declarations filed since Oct 2025" (source: ravi_garments_compliance_q1_2026.pdf)
- "Modern Slavery Act statement published 2026" (source: ravi_garments_compliance_q1_2026.pdf)
- "EU Supply Chain Due Diligence narrative published" (source: ravi_garments_compliance_q1_2026.pdf)
- "Average weekly working hours: 46" (source: ravi_garments_compliance_q1_2026.pdf)

4. Independent audit evidence (third-party measurements)

Metric	Measured value	Unit	Date	Source document
water effluent discharge	3.2	ppm	2026-04-22	bureau_veritas_water_apr26.pdf
weekly working hours	47	hours	2026-04-10	certverify_labour_audit_apr26.pdf
co2 per unit	2.4	kgCO2/garment	2026-03-31	carbon_calc_q1_2026.csv
lead in dyes	22.0	ppm	2026-03-20	chemical_lab_report_q1_2026.pdf
supply chain due diligence report	PUBLISHED	—	2026-03-15	annual_disclosure_2026.pdf

5. Auditor cross-check (claim vs evidence)

The cross-check below compares Section 3 (self-reported claims) against Section 4 (independent measurements). Any inconsistency triggers a recommended remediation in Section 6.

- All self-reported claims are consistent with the independent measurements. No contradictions found.

6. Auditor risk summary and recommended remediation

Compliance score (0-100)	91
Risk level	COMPLIANT
Estimated orders at risk	PKR 25.00 lakh
Buyers materially affected	EuroThread SA, Next, NordStyle Group
Audit issued by	Independent third-party (this report)

COMPLIANT. Ravi Garments Ltd is the gold-standard case for this audit cycle. All five certifications (SA8000, ISO 14001, GOTS, OEKO-TEX, BSCI) are current with surveillance audits on file. CBAM quarterly declarations have been filed since October 2025 under an authorised declarant registration. The UK Modern Slavery Act 2015 s.54 statement was published in April 2026 and is hosted on the factory's website with the supply-chain map. The EU Corporate Sustainability Due Diligence narrative has been published in line with Directive (EU) 2024/1760 transposition deadlines. Water effluent at 3.2 ppm is well within the 8 ppm REACH ceiling; weekly working hours at 47 are below the SA8000 60-hour cap; CO2 per garment at 2.4 kgCO2 is the best in this audit cycle and positions Ideal favourably under the 2027 CBAM free-allowance phase-out. A single advisory: continue to monitor lead-in-dye measurements (currently 22 ppm vs OEKO-TEX limit 50 ppm) to maintain the current margin of safety.

This report was generated for the AISeekho 2026 Google Antigravity Hackathon submission (ExportIQ). It contains realistic but synthetic data for the named factories.
